SWIM LESSON OVERVIEW

The purpose of the YMCA swim lesson program is to develop competency in swimming, along with confidence and endurance. A child is advanced to the next level only when he or she can proficiently and safely perform the skills within his/her level.

We expect each child to learn and progress at their own rate. Therefore, please don't be discouraged if your child doesn't complete all the skills within their level during any one session. Your child needs to know that it is acceptable to take as much time as is necessary to master the skills.

The YMCA uses small groups, individual programming, guided discovery and problem solving to communicate the skills of swimming. Instructors create a student-centered rather than teacher-centered atmosphere in the class. Our aquatic staff hopes that your family will participate in all of our swim programs. If you have any questions, please contact the Aquatics Director, 360-255-0637

RULES & REQUIREMENTS

1. Please keep children away from the edge of the pool until the instructor is with them.
2. Children 5 and younger can accompany opposite gender adult into locker to help with dressing/showering. If children over 6 need assistance, the public bathroom may be used.
3. Please make sure your child has a towel and proper swimming attire. Swim diapers are required if not toilet trained. No cotton material.
4. No gum, candy or food on the pool deck or in the pools.
5. Encourage children to use the restroom before beginning class.
6. Please resist going to your child even if they are crying or misbehaving. This is the time the instructor needs to develop trust and set disciplinary boundaries, parental interruption makes this task more difficult.
7. Please shower before entering the pools.
8. No shoes allowed on the pool deck.
9. Please refrain from taking pictures or videos of other people's children. If you would like to get a photo of your child in the water, please speak with the lifeguard.

YMCA SWIM LESSON OVERVIEW

SWIM STARTERS Parent* & Child Lessons		SWIM BASICS (Safety Around Water) Recommended skills for all to have around water			SWIM STROKES Skills to support a healthy lifestyle		
A Water Discovery	B Water Exploration	1 Water Acclimation	2 Water Movement	3 Water Stamina	4 Stroke Introduction	5 Stroke Development	6 Stroke Mechanics
