FALL RUNNING PROGRAMS

Health Screening Protocol

DAILY HEALTH SCREENINGS

Daily health screenings will be conducted on all campers during drop off times. We are working with our local Health Department and District nursing staff to stay up to date on the current screening questions.

Here is what you can expect to be asked regarding symptoms within the past 72 hrs:

- Fever of 100.4° or higher
- Known COVID-19 exposures
- Sore Throat
- Shortness of breath or difficulty breathing
- Chills
- Muscle or Body aches
- Nausea/vomiting/diarrhea
- Congestion/runny nose - not related to seasonal allergies
- Unusual fatigue
- New loss of taste or smell
- Anyone within the household have any of the above symptoms
- Any fever reducing medications before arriving

Campers will be excluded from camp if anyone in their household screens positive for the above symptoms.

RATIOS

We will be following current group size recommendations of no more than 10. Groups will have 1 counselor and no more than 9 campers.

HAND WASHING & CLEANING

Adults and children will wash and sanitize hands upon arrival and throughout the day. School facilities will be cleaned and disinfected throughout the day following recommended health guidelines.

MASKS

We will ask that counselors wear masks when they cannot be 6-feet away for anyone else, especially indoors. At this time campers are not required to wear masks.
